DETAILED ACTION

1. This action is responsive to the remarks filed on 4/17/2006.

This action is made Final.

2. In the amendment, claims 25-27 have been added. Claims 1-27 are pending in the case. Claims 1, 9, and 17 are independent claims.

Drawings

3. The drawings filed on 7/10/2000 have been accepted by the examiner.

Claim Rejections - 35 USC § 112

4. The rejections of claims 1-24 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description, and enablement requirement, have been withdrawn as necessitated by the remarks. The Examiner concurs with Applicant's indication that since the storage of the string in the constant was present in the claims found in the original disclosure, and the disclosure of the creation of a constant to store non-Unicode characters as found in the specification (pages 16-17, and 20), that the rejection should be withdrawn (page 7, parag.1-3)

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Specification

6. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

7. US Applications should be updated to reflect the current serial, and Patent numbers (page 2).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
